

Three months before our wedding, we began the search for a caterer that could handle a 600-person guest list. In our culture, most couples serve Chinese food at weddings, but we wanted to do something different and have Thai food.

We were impressed with the menu at **Thai Bloom!** The staff was very knowledgeable about what it would take to make the event successful. They listened to our input and provided practical advice on which items would best suit the setting. They visited the venue to ensure that all of the logistics would be handled properly. And they made adjustments when we had to change the reception from a farm to an urban setting.

On the day of the event, **Thai Bloom!** set up outdoor tents from which they cooked all of the food fresh. They prepared several dishes featuring a variety of tastes and textures. The presentation for each dish was superb. Everyone was served at the same time. No one would have guessed that the chefs were working in a make-shift kitchen!

We heard lots of compliments about the food during the reception. The servers were attentive and helpful. Staff stayed until all of the guests left, boxed up the leftovers, and returned the site to its original condition.

From start to finish, it was a pleasure working with **Thai Bloom!** They were easy to work with and readily accommodated our circumstances and requests. We highly recommend them.
